

TITLES

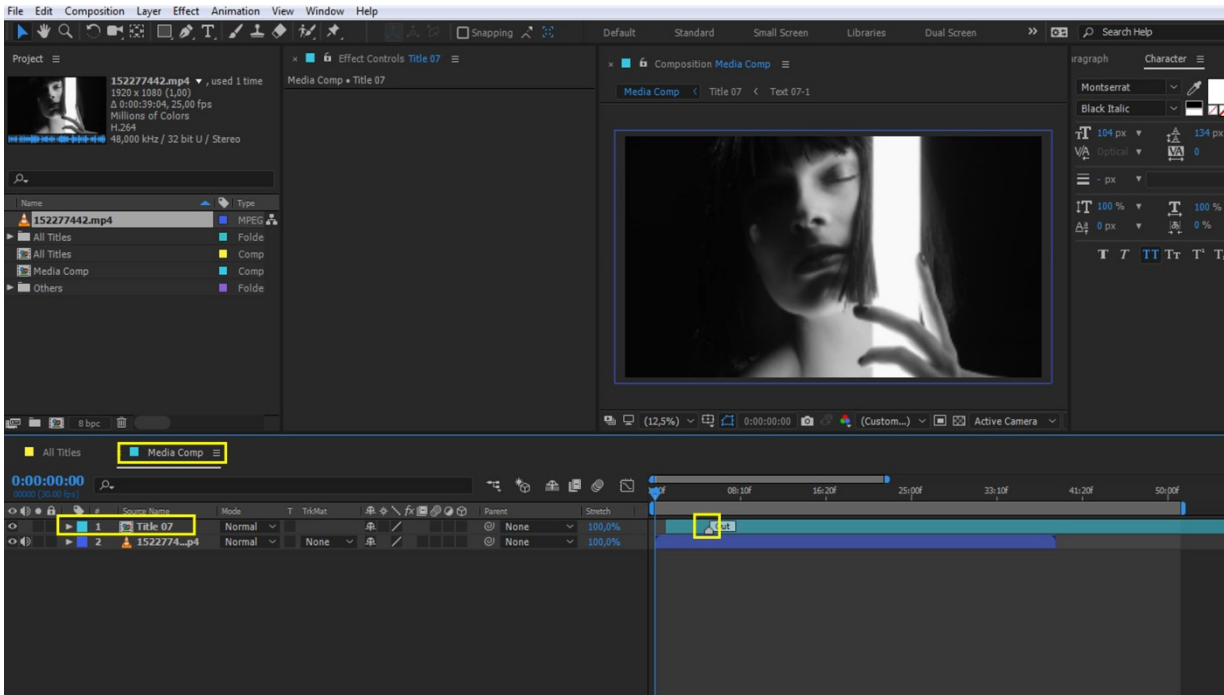

Before open the project download and install these free font:

<https://www.fontsquirrel.com/fonts/montserrat>

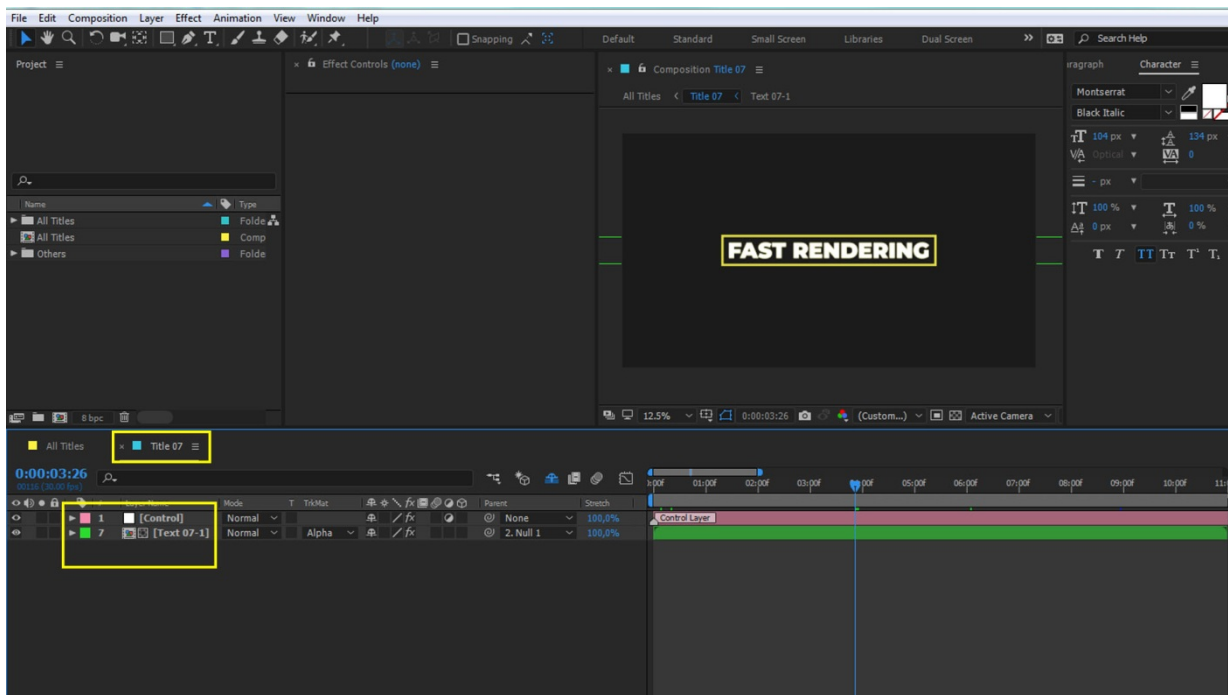

You can access to all title compositions from the “**All Titles**” folder or “**All Titles**” composition.

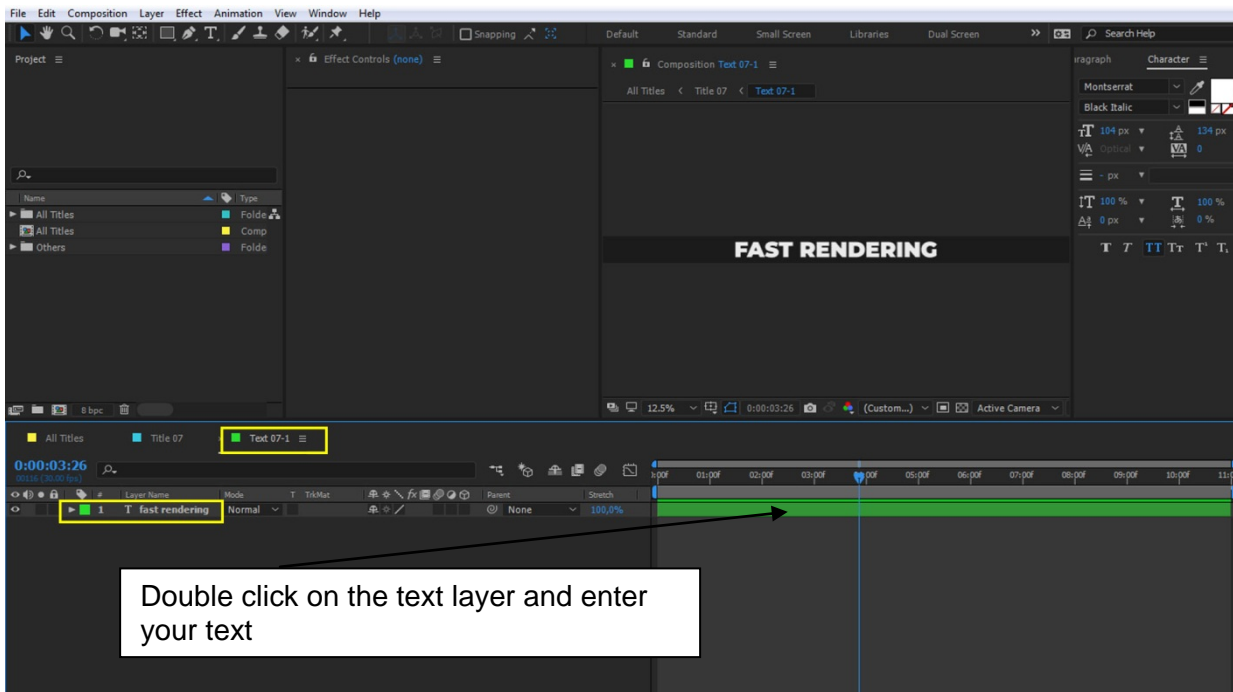

Find the title you would like to use and copy it into your media composition (“ctrl+c”, “ctrl+v” or “cmd+c”, “cmd+v”). For increase or decrease duration of the title, just move “out” markers.

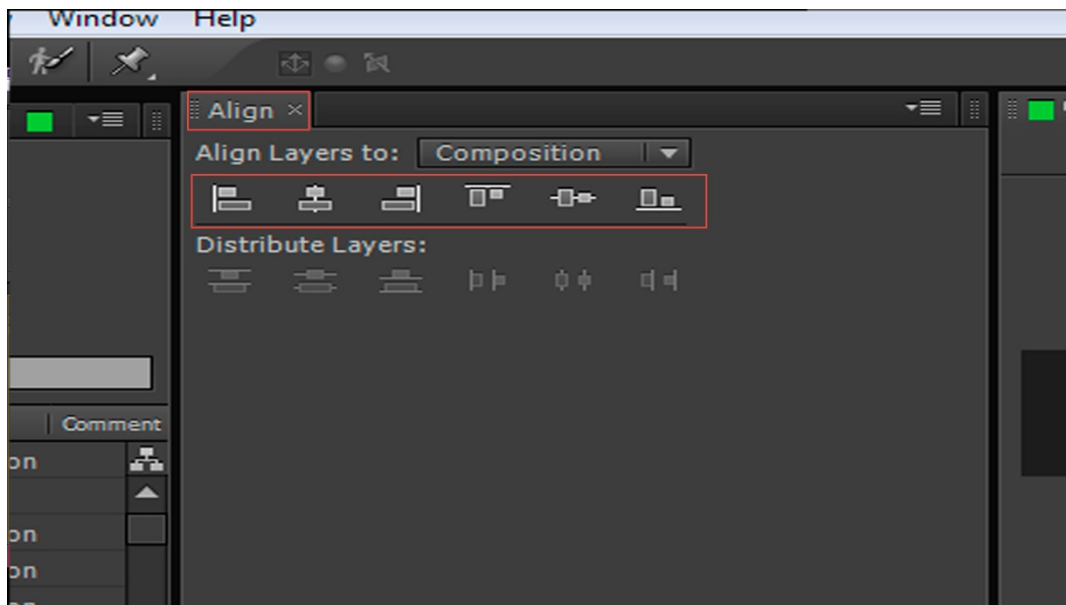

Double click on the **Title N** composition to start edit it.

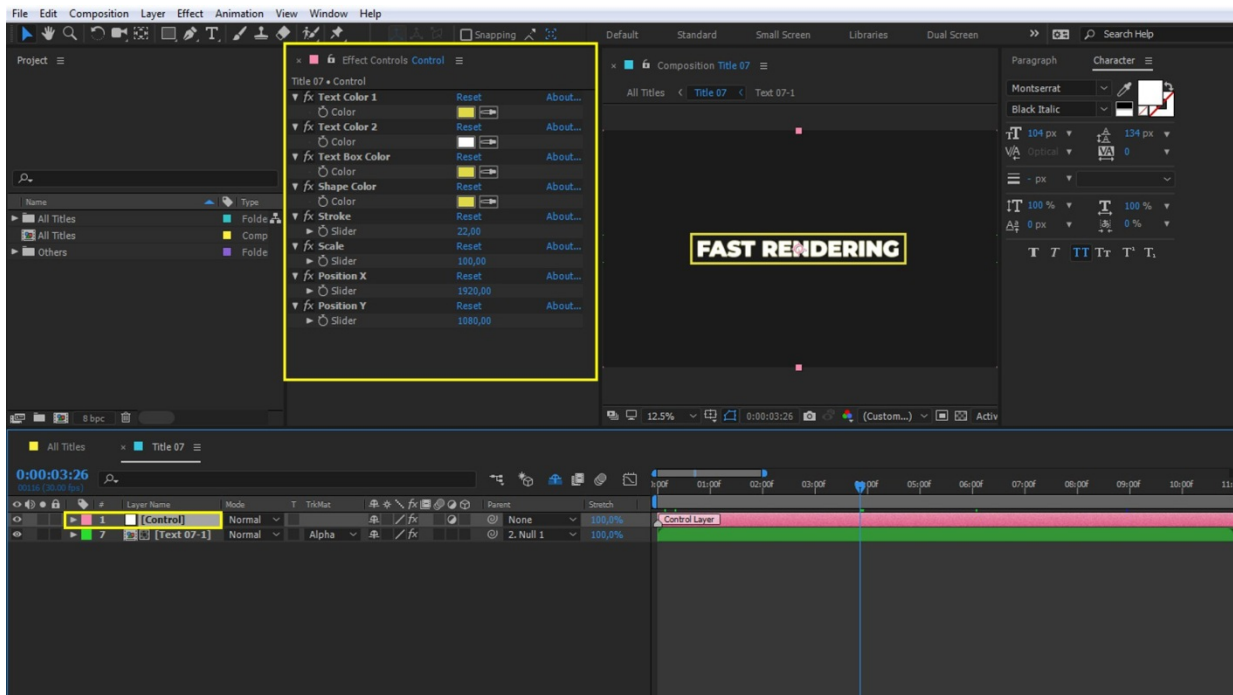

In each **Title** composition you can see **Text Layer** (or several text layers) and **Control Layer**. Double click on **Text layer** to open it.

Do not delete an existing text layer, it may contains animations, just double click on it to edit text . Use align window, if necessary.

Each **Title** composition has a **Control Layer**. You can change size, colors, position using this layer. Just click on Control Layer and make all necessary adjustments in Effect Controls Panel.

That is all!

ENJOY!
